

ASME CODED

ASME CODED

All CoorsTek Pulsation Dampeners are available with ASME U Stamp (ASME Boiler and Pressure Vessel Code Section VIII Division 1)

COORSTEK PULSATION DAMPENERS

CoorsTek Pulsation Dampeners are manufactured on two continents to the same stringent quality standards of material and workmanship required by ASME Boiler and Pressure Code. All of our welders are certified and our engineering calculations are maintained and available with full material traceability.

For more information, please contact us at +1.405.601.4371 or oilgas@coorstek.com.

Thousands of CoorsTek pulsation products are currently operating globally in any market where fluid attenuation is needed.
