

Key and Valued Supplier:

CoorsTek, Inc., (“CoorsTek”) is a customer of your business.

As the COVID-19 pandemic continues to evolve, CoorsTek is monitoring the impact to its business and operations of national, state and local emergency orders.

CoorsTek has determined that our business and manufacturing facilities are essential to the continued viability of the critical infrastructure of the United States as described in the March 19, 2020, “*Memorandum on Identification of Essential Critical Infrastructure Workers During COVID-19 Response*”¹ issued by the Cybersecurity and Infrastructure Security Agency (the “Memo”). This determination is based on the fact that CoorsTek, by virtue of the materials and components that we produce and customers we serve, is engaged in several critical infrastructure industries, including but not limited to: Healthcare and Public Health, Food and Agriculture, Energy, Communications and Information Technology, and Critical Manufacturing (including the defense industrial base).

It is imperative that as a key and valued supplier you recognize the critical nature of your business to CoorsTek. The goods and/or services CoorsTek acquires from you enable CoorsTek to support the critical infrastructure industries of the United States. **CoorsTek expects that you will remain open and continue supplying goods and/or services to CoorsTek**, even during the duration of any national, state and local emergency orders that include the exemptions for those critical infrastructure sectors as outlined in (or substantially the same as those outlined) in the Memo.

This letter is provided to you for your use in order to validate to any appropriate national, state, or local authority your relationship to CoorsTek, and support of, the critical infrastructure industries of the United States.

CoorsTek is operating its facilities in accordance with and has directed its managers and employees to abide by all social distancing practices and other COVID-19 mitigation measures recommended by the Centers for Disease Control to protect its workers and patrons.

If you have any questions about this letter, please contact Chris Duchene, Vice President of Global Supply Chain as depicted below.

Please continue to be safe.

Sincerely,

Chris A Duchene
Vice President of Global Supply Chain
