

5 Ways to Protect Yourself from Cyber Fraud

Here's what you can do to keep your Fidelity workplace savings account safe.

Set up online access for your Fidelity NetBenefits® account with a unique username and password.

Cybercriminals frequently attack unregistered online accounts.

- > If you're new to NetBenefits, create a **UNIQUE** username and password by selecting *Register as a new user* from NetBenefits.com.
- > If you're already registered, change your username and password by visiting NetBenefits.com > Profile > Security Center.

1

Sign up for 2-factor authentication at login to further protect your Fidelity NetBenefits account.

2-factor authentication at login allows you to enable a challenge every time you log in OR whenever you log in from a new device.

- > Visit NetBenefits.com > Profile > Security Center to sign up.
- > You must have a phone number on file in NetBenefits to be eligible for this service.

2

Add or update your mobile phone number and email address.

Get real-time alerts and confirm sensitive transactions through 2-factor authentication.

- > Visit NetBenefits.com > Profile > Personal & Contact Information.

3

Sign up for eDelivery and monitor your Fidelity NetBenefits account.

Check account statements and other documents for unauthorized activity.

- > Visit NetBenefits.com regularly. To receive your documents via email instead of U.S. Mail, go to Profile > Preferences.

4

Enable Fidelity MyVoice®.

Eliminate the need for passwords with your personal encrypted voiceprint.

- > The next time you call, a Fidelity Representative will offer to enroll you—you'll need to provide Fidelity consent to create your unique voiceprint.

5
